Treasurer: Joe Potts

PETITIONS FROM THE PUBLIC
None

OLD BUSINESS

Business Item   BIC

Community Center Handicap Access    Wayne

Prior to 09/18/2010, see September 18, 2010 meeting minutes.
Handicap access to the Community Center has been completed. There was a proposal to add a
handicap ramp from Recreation Lane to the Town Office for approx. $60,000. No action was
taken. All of the handicap requirements imposed by the State have been completed. The State
still owes Frye Island $2800 as their share of the project costs. Wayne will continue to try to get
that money. The suggestion to provide handicap access to the Admin Office has been addressed
by making arrangements with those people needing assistance to meet them at an acceptable
location to conduct business. The administration portion of this item is closed
10/23/2010 Wayne spoke with Tina Means at the Secretary of States office. She said they are short handed
and have been very busy with the coming elections but we will get reimbursed but she won’t be
able to take care of it until after the elections are over. However, she sent a form for Frye Island
to do a self evaluation of the ferry trailer as a voting place. This has to be done before the
November elections. There was no action taken on this item.
12/04/2010 Wayne reported that he will have to resend some of the information to the State but with the
recount on the casino question, it is doubtful a decision will be made before the end of the year.

Conceptual Plan for Willis Property – Transportation Committee    Wayne/Transportation Committee

Prior to 09/18/2010, see September 18, 2010 meeting minutes
The Transportation Committee met on September 11th. A draft copy of the plan including the
“ring road” only has been submitted by Land Services Inc. but it has not been estimated yet.
Correspondence from MEDOT indicated that they would be more inclined to assist in the funding of
a Park & Ride facility than they would in the purchase or upgrade of a ferry. They also would
like a visit to our facility to review our operation. John Crosby is trying to schedule this.
10/23/2010 We received notification from MEDOT indicating they have reviewed our project for a “Park &
Ride” facility and have determined that we did not qualify for the grant. The specific grant
program they were considering requires that an eligible project demonstrate a reduction in
emissions, a reduction of vehicle miles traveled and connectivity to other modes of passenger
transportation such as carpooling, vanpooling and fixed route passenger services. Additionally, the traffic and pedestrian safety issues raised relate specifically to a local road, as opposed to a state or federally classified road which would fall under the department’s responsibility.

12/04/2010  No Change – Nothing is being done at this time

Ferry Electronic Ticketing System  Joe / Wayne

**Prior to 09/18/2010, see September 18, 2010 meeting minutes.**

We have received a proposal for $6000 to complete an analysis / peer review of the existing ferry ticketing system. This review would be conducted by Starlit Software located in Raymond Maine and would be completed in time to present the findings / recommendations to the ExCom at the October 23rd meeting. I request that up to $6000 be appropriated from the Ferry Reserve to conduct this Peer Review. A motion was made by John Nun and seconded by Dave Bond to appropriate up to $6000 from the Ferry Capital Reserve to fund this project. The motion passed with 6 votes in favor.

10/23/2010 John Thomas from Starlit Software presented the results of the review of the eTicket system. In summary, while there were some areas of the system that were acceptable, it was felt that it would be easier and we would have a better system if the program was re-written starting with an appropriate and secure frame and building the desired program from that. A motion was made by Jim Kuiken and seconded by Mark Thomas to engage Starlit Software to re-write the eTicket software at a cost not to exceed $50,000. A proposed contract was presented but there were questions. It was decided that the original RFP should be the framework for the new contract with a supplemental clarifying the expected plan. Joe will forward his thoughts to Wayne and Wayne will work with Starlit to prepare a contract for the work to be performed. Once a new contract is developed, Wayne will circulate it to the ExCom for review before approving it. Wayne was instructed to pay the outstanding invoice of $2700 for Acute Technologies and attempt to get documentation of system design and operating manuals.

12/04/2010 A contract has been signed with Starlit Software to re-write the software program for the electronic ticketing system. A letter has been sent to Acute Technology terminating the contract with them. Starlit Software reports the following progress:

- completed initial database design and system architecture work.
- configured a development site (web address and database)
- configured a source code repository, and setup to deploy to the development server when changes are committed
- built a skeletal application (aka "scaffolding") containing rudimentary implementation of many data entities (users, accounts, transactions, etc.) that the system will manage.
- setup basic security subsystem
- started work on the administration site (view list of "Contacts")
- started work on the rider account site ("My Account")

With much of the basic framework for the application in place, we are now focused on building out specific functionality. We have not spent any time on look and feel (such as color schemes, etc.) and will probably do that very late in the process.

273 Leisure Lane Erosion issues  DEP

**Prior to 09/18/2010, see September 18, 2010 meeting minutes.**

09/18/2010 The Landscaping Company will plant the required blueberry bushes as soon as they are available at the nursery. The final 25’ will not be finished until a later date after the house is built.

10/23/2010 The landscape company, Clement Bros., has completed the re-vegetation of zone 1. This includes the planting of the blueberry bushes as well as the installation of the weed control under the rip-rap; and exposing the toe boulders which the DEP required. The Code Enforcement Officer has approved the re-vegetation but this still requires DEP approval. Wayne met with Mike Morse and Jeff Kalinich from the DEP on Wednesday October 20 to review the progress at 273 Leisure Lane. While they did identify a few remaining issues, they were pleasantly surprised with the progress. They said they would relay there concerns to the DEP attorney handling the case. On Friday
Wayne spoke with Mr. Zea. He said he had spoken with the attorney from the DEP and they agreed to wait until spring to see how everything survived the winter before doing anything more. John Thompson, Frye Island CEO has inspected the area and felt that the re-vegetation satisfied the Town’s requirements.

**273 Leisure Lane - Re-vegetation Issues**

<tr>
<td>10/23/2010</td>
<td>The re-vegetation of zone 2 is complete with the exception of 25 feet around the foundation. This is required and will be completed once the construction of the home is finished. I am still holding $1344.46 in addition to the $5,000 fine and the $5,000 escrow that was paid earlier. The $1344 is in the liability account to be paid after the final 25 feet are re-vegetated. Wayne spoke with Mr. Zea on Friday October 24th and was told that Mr. Zea had hoped to get a building permit this fall so that construction on the house could begin early but he was unable to. This will be done in the spring.</td>
</tr>

</thead>
<tbody>
<tr>
<td>09/18/2010</td>
<td>The ExCom discussed the legal correspondence from the Town attorney and the Leonard’s attorney in executive session. To date, no agreement has been reached on a resolution; however, the Executive Committee is committed to resolving this issue.</td>
</tr>
<tr>
<td>10/23/2010</td>
<td>The ExCom adjourned to Executive Session to discuss the legal aspects of the encroachment onto the public area of Beach 9 and the claim of ‘Adverse Possession” filed by the Leonard family. Following the Executive Session, a motion was made by John Nun and seconded by Mark Thomas to recommend to Frye Island Incorporated that an easement be granted to the Leonard family for the existing portion of the septic system and the parking area that was on Frye Island Inc property but to grant no concessions on the beach area. Furthermore, any future rebuild of the septic or parking area had to be in the same exact footprint of the existing system or on Leonard property, there could be no further encroachment onto FII property allowed. The motion passed</td>
</tr>
</tbody>
</table>
with 6 in favor. Mr. Kuiken abstained. Wayne was instructed to notify the attorney of this position and to have the boulders removed by the time the Island closed.

12/04/2010 The boulders have been removed, we have not heard anymore from Mrs. Leonard’s attorney at this time

Maine DOT Ferry Proposal

Wayne, John Crosby, Transportation Committee

Prior to 09/18/2010, see September 18, 2010 meeting minutes.

09/18/2010 The Naval Architect is still working on the plans. We have still heard nothing from MEDOT or the Federal Highway Commission.

10/23/2010 The report from the Naval Architect is available. And has been forwarded to the ExCom. Wayne reported that an updated report has been received by the Transportation Committee but the Committee has not had a chance to review and comment yet. Once that report is finalized Wayne will send it to the ExCom. There has been no additional information from the MEDOT.

12/04/2010 I have attached the final report from the Naval Architect. We have not heard anything from the MEDOT; apparently no decisions have been made by the Federal Highway Administration.

Use of Frye Island Facilities (Beaches) by non-residents

Wayne / Marina Committee / Public Works

Prior to 09/18/2010, see September 18, 2010 meeting minutes.

09/18/2010 Wayne met with Nancy Donio, Chair of the Beach Committee. She will be preparing her recommendations for the beach signage. This probably won’t happen until next season.

10/23/2010 Nancy Donio has recommended new signs to reflect the Beach Ordinance and relocating the signs when installed to be more visible. Wayne will work with Public Works to address this recommendation.

12/04/2010 No Change

Health Insurance Rates

Wayne / Executive Committee

07/31/2010 Wayne reported that he had a brief discussion with the representative from the Maine Municipal Employee Health Trust (MMEHT) and was informed that the health insurance rates for next year would increase 12% and the dental rates were increasing 5%. Wayne is going to schedule a meeting with the representative to discuss available options.

08/21/2010 No Change

09/18/2010 No Change, Wayne is still trying to get additional quotes on supplying medical insurance.

10/23/2010 Wayne has looked into this, as have a number of other municipalities, and the cost and benefits offered by the MMEHT are competitive with all other plans available. However, there are options available that should be discussed with the possibility of modifying the personnel policy. A summary of the MMEHT plan is attached. This issue will be addressed at a later meeting.

12/04/2010 No Change

Tennis Courts

John Crosby / Wayne

07/31/2010 Brian Riley spoke on the disrepair of the tennis courts at the Community Center and the fact that the courts at Lancaster Loop were oriented east - west which makes it very difficult for the better players to use these courts because of the sun. Apparently, the courts were originally oriented north-south but at some point were changed. The Committee asked Wayne and John to review the courts and the available options and report to the Committee.

08/21/2010 Vermont Tennis was contacted to review and evaluate our tennis courts. It was their opinion that it would not be cost effective to re-orient the courts at Lancaster Loop. They felt that they should be reseeded and re-striped, but left as they are. In their opinion these courts would be fine for the majority of the people. Their proposal to seal and stripe these courts is $5,047 plus $3,300 to remove and reset the fence on the Highpoint Drive side. The courts at the Community Center are a different story. They need to be dug out and replaced. We have a price from Frank Snow to rebuild these courts for $77,870. This proposal does not include the sealing and striping. Vermont
Tennis has provided a quote of to do the sealing and striping for $6078. They will be providing a quote to replace the courts as well. The old courts at the Recreation Area were checked and it was determined that those courts would not be worth trying to resurrect. The Recreation Commission has suggested converting those courts into a volleyball / bocce / horseshoe area. I have asked Ken Thurston for a proposal to clear that area. In addition, the basketball court should be resealed and repainted. Vermont Tennis will include this for $2777 if they are on Island to do the other work. The ExCom asked if it would be wiser to build new courts at a different location, possibly the old recreation area or the golf course. A possible use for the Community Center courts could be for skate boarding. Wayne was asked to have the Recreation Commission develop a long term plan for recreational facilities.

**09/18/2010** Wayne met with Andrea Sansonetti, chair of the Recreation Commission. I asked her to work with the Commission to develop a “mission statement” and to develop a long term plan for all of the recreation facilities. She said she would work on this; most likely via e-mail over the winter. I also suggested that she contact Brian Riley for his input into the Tennis facilities on the Island. It was suggested that those interested in tennis form a committee to pursue means of funding improvements to the tennis facilities.

**10/23/2010** No Change

**12/04/2010** No Change

### Purchase 3” water distribution pipe for Leisure Lane

**Executive Committee**

**10/23/2010** We would like to purchase the pipe for Leisure Lane before the Island closes this year so that it will be available as soon as the Island opens next spring. We have a proposal for the pipe of approximately $29,000 for enough 3’ pipe to complete Birch Road to the intersection of Leisure Lane (near the Marina) and all of Leisure Lane, including the north end, to Sunset. Wayne reported that there was presently a shortfall of approximately $5000 in the existing water line replacement account but approximately $29,000 remaining in the reserve account. A motion was made by John Nun and seconded by Mark Thomas to move the remaining money in the reserve account to the expense account. Following the discussion, it was decided to move $5000 to the existing operating account and to establish a phase 4 account and transfer the remaining $24,000 to the phase 4 account. John Nun made that a motion seconded by Mark Thomas. The motion passed with 7 in favor.

**12/04/2010** The piping for the next phase has been ordered and delivered to the Island. The supplier has agreed to accept ½ of the payment this year and the remainder next year after the new budget is in affect. The expense detail for phase 3 of the water line replacement shows a negative balance of -$4,812.28. I request that we transfer an additional $4,812.28 from phase 4 to phase 3 to balance this account. A motion was made by Mark Thomas and seconded by Jim Kuiken to transfer $4,812.28 from phase 4 of the water line replacement project to phase three. Following a discussion and explanation, the motion passed unanimously.

### NEW BUSINESS

#### Checking account reconciliation

**Wayne / Joe Potts**

**12/04/2010** We have found an accounting firm, Purdy Powers & Company that will assist the Town in the checking account reconciliation process.

#### Funding for the Long Term Transportation Reserve

**ExCom**

**12/04/2010** The Executive Committee held a discussion about the funding options for the Long Term Transportation Reserve. Mark Thomas presented the thought that 35% of the trips on the ferry are made by non-Islanders but the LTT Reserve is funded solely by Island property taxes. It was his thought that the ferry fees should be adjusted in some way so that the non-islanders contribute to the LTT Reserve as well. There was a considerable amount of discussion on the possible options. The Treasurer volunteered to develop a Model to evaluate changes in ferry ticket pricing to create possible methods to provide funding to the LTT reserve and to provide a way to give FI property owners a ferry ticket discount unique to them. The ExCom agreed
that the Treasurer should develop the model and have the model available by the January 2011 meeting.

</tr>
</thead>
<tbody>
<tr>
<td>12/04/2010 A very heavy wind blew through the Island during the weekend of November 6th. Both CMP and Fairpoint responded to repair the storm damage. The repairs to the rudder stuffing boxes / packing glands on the Ellie Corliss have been completed and the ferry is back in service. The pontoon boat has been pulled and is now in the pit on the mainland. The pontoons are leaking and will be repaired by Specialty welding in Naples will repair it for the next season. Public Works has installed and wired a new pole for an additional island camera next to the gantry, this will give line of site all the way up the road. Peter Salinger will provide and install camera. All of the damaged boards on the slipways have been repaired and new boards have been installed at the bottom of the island gantry. Dock World of Maine has installed the new pilings at the island slipway to support the existing pilings that were broken. Ken Gardner has been volunteering at the golf course and has completed all of the trim (door and windows) he has also installed all of the new door locks that he donated. All of the locks have been re-keyed. All of the street and cottage connections have been made to the new water line on Ridge Road. The entrance to the Marina was dredged as allowed by the 10 year permit issued by the DEP. Everyone is now off the Island and it is secured for the winter. Dave Bond reported that he had been to the Island recently with John Crosby and Police Chief Rod Beaulieu. Both CMP and Fairpoint had been to the Island to complete repairs from the November storm and the power has been restored to the Island. The Island has been secured for the winter, the ferries have been laid up and the bubblers have been installed around the ferries. Chief Beaulieu will patrol the Island on an announced, random schedule using the aluminum boat for access.</td>
