Minutes for the Selectmen/Executive Committee Meeting 05/14/2011

Start: 9:01 AM  End: 1:51 PM  Next Meeting: June 24, 2011  Next Time: 6:00 PM  Meeting Location: Community Center

The meeting was moved to the Town Office because of technical issues.

Attendance:

Executive Committee:

Town Manager: Wayne Fournier
Treasurer: Joe Potts

Jim Kuiken – Selectman (Via Phone)
John Nun – Selectman
Mark Thomas - Selectman
Gary Donohue
Joe Potts
Dave Bond
Bob Sutherland (Via Phone)

Mr. Kuiken asked Mr. Thomas to chair the meeting as Mr. Kuiken was attending by phone. Mr. Thomas agreed.

Petitions from the Public:

Brian Riley: Mr. Riley inquired about the status of the tennis courts. Following a lengthy discussion, the ExCom agreed that the tennis courts at the Community Center were an important amenity that should be preserved or replaced. It was agreed that Wayne and John would solicit a specification for a tennis court and modify it to meet the needs of Frye Island in preparation for the development of a request for proposal. Dave Bond volunteered to help with this effort. It was suggested that alternate sites be considered as well as replacing the courts in the existing footprint. We will try to have the specification and 2-3 alternate sites available for consideration by the ExCom at the June meeting.

Richard Norris: Mr. Norris commented on the success of the Jason Dunham day held in 2010 from both an Island standpoint as well as from the crew members of the Jason Dunham that were treated to a special day. Mr. Norris stated that he had had discussions with the CO's of 2 new ships being constructed at the Bath Iron Works and their hopes to provide a similar event for their crews. The ExCom agreed it turned into a very enjoyable day for the Navy crews as well as all of the Islanders that participated. Everyone agreed that Mr. Norris could develop a plan for a similar day for the crews of the USS Spruance and the USS Michael Murphy. A suggested date was July 23rd.

Old Business:

Business Item: Community Center Handicap Access

Prior to 09/18/2010, see September 18, 2010 meeting minutes.

Handicap access to the Community Center has been completed. There was a proposal to add a handicap ramp from Recreation Lane to the Town Office for approx. $60,000. No action was taken. All of the handicap requirements imposed by the State have been completed. The State still owes Frye Island $2800 as their share of the project costs. Wayne will continue to try to get that money. The suggestion to provide handicap access to the Admin Office has been addressed by making arrangements with those people needing assistance to meet them at an acceptable location to conduct business. The administration portion of this item is closed

10/23/2010 Wayne spoke with Tina Means at the Secretary of States office. She said they are short handed and have been very busy with the coming elections but we will get reimbursed but she won't be able to take care of it until after the elections are over. However, she sent a form for Frye Island to do a self evaluation of the ferry trailer as a voting place. This has to be done before the
November elections. There was no action taken on this item.

12/04/2010 Wayne reported that he will have to resend some of the information to the State but with the recount on the casino question, it is doubtful a decision will be made before the end of the year.

01/29/2011 Wayne has sent the additional information the State requested and is now waiting a response.

04/02/2011 No Change

05/14/2011 Wayne was asked to have the plans for the “Ring Road” available for the Ex COM to review for the June meeting.

Conceptual Plan for Willis Property – Transportation Committee

Prior to 09/18/2010, see September 18, 2010 meeting minutes

09/18/2010 The Transportation Committee met on September 11th. A draft copy of the plan including the "ring road" only has been submitted by Land Services Inc. but it has not been estimated yet. Correspondence from MEDOT indicated that they would be more inclined to assist in the funding of a Park & Ride facility than they would in the purchase or upgrade of a ferry. They also would like a visit to our facility to review our operation. John Crosby is trying to schedule this.

10/23/2010 We received notification from MEDOT indicating they have reviewed our project for a “Park & Ride” facility and have determined that we did not qualify for the grant. The specific grant program they were considering requires that an eligible project demonstrate a reduction in emissions, a reduction of vehicle miles traveled and connectivity to other modes of passenger transportation such as carpooling, vanpooling and fixed route passenger services. Additionally, the traffic and pedestrian safety issues raised relate specifically to a local road, as opposed to a state or federally classified road which would fall under the department’s responsibility.

12/04/2010 No Change – Nothing is being done at this time

01/29/2011 No Change

04/02/2011 No Change

05/14/2011 Wayne was asked to have the plans for the “Ring Road” available for the Ex COM to review for the June meeting.

Ferry Electronic Ticketing System

Prior to 09/18/2010, see September 18, 2010 meeting minutes.

09/18/2010 We have received a proposal for $6000 to complete an analysis / peer review of the existing ferry ticketing system. This review would be conducted by Starlit Software located in Raymond Maine and would be completed in time to present the findings / recommendations to the ExCom at the October 23rd meeting. I request that up to $6000 be appropriated from the Ferry Reserve to conduct this Peer Review. A motion was made by John Nun and seconded by Dave Bond to appropriate up to $6000 from the Ferry Capital Reserve to fund this project. The motion passed with 6 votes in favor.

10/23/2010 John Thomas from Starlit Software presented the results of the review of the eTicket system. In summary, while there were some areas of the system that were acceptable, it was felt that it would be easier and we would have a better system if the program was re-written starting with an appropriate and secure frame and building the desired program from that. A motion was made by Jim Kuiken and seconded by Mark Thomas to engage Starlit Software to re-write the eTicket software at a cost not to exceed $50,000. A proposed contract was presented but there were questions. It was decided that the original RFP should be the framework for the new contract with a supplemental clarifying the expected plan. Joe will forward his thoughts to Wayne and Wayne will work with Starlit to prepare a contract for the work to be performed. Once a new contract is developed, Wayne will circulate it to the ExCom for review before approving it. Wayne was instructed to pay the outstanding invoice of $2700 for Acute Technologies and attempt to get documentation of system design and operating manuals.

12/04/2010 A contract has been signed with Starlit Software to re-write the software program for the electronic ticketing system. A letter has been sent to Acute Technology terminating the contract with them. Starlit Software reports the following progress:
* completed initial database design and system architecture work.
* configured a development site (web address and database)
* configured a source code repository, and setup to deploy to the development server when changes are committed
* built a skeletal application (aka "scaffolding") containing rudimentary implementation of many data entities (users, accounts, transactions, etc.) that the system will manage.
* set-up a basic security subsystem
* started work on the administration site (view list of "Contacts")
* started work on the rider account site ("My Account")

With much of the basic framework for the application in place, we are now focused on building out specific functionality. We have not spent any time on look and feel (such as color schemes, etc.) and will probably do that very late in the process.

01/29/2011  Starlit has been working on the development of the system. In an effort to make the ferry portion of the program as user friendly for the mates I have put them in contact with Ronnie Ilich for her input. A number of questions have arisen about the fees that should be charged when an individual appears at the mainland terminal with a vehicle costing $50.00 if a ticket is purchased in the office and $100.00 if purchased on the mainland. If they have 1 - $15 ticket are they entitled to the $50.00 rate? What if they have 2 or 3 tickets? One thing that has to be changed is that all of the fees must be evenly divisible by the base ticket price. We realize that a lot of this will be remedied when and if everyone has an account but they should be considered when developing the next fee schedule and should be discussed at this meeting to identify the policy to be followed by the ferry crew.

The developers continue to work on the program. A scanner was purchased and sent to the developers for testing. The report is the scanner worked very well. A second scanner has been purchased and sent to Joe Potts for his use. The development of the program appears to be coming together and is expected to be on schedule for the opening. Joe reported that he has been working with the system and has generated a number of questions for the developer but also reported that the developer has been very responsive to his questions and comments.

04/02/2011  The new program was implemented under extremely busy conditions. The software appears to be working very well. The biggest issue remaining is the time delay in the communication with the server. The developer is preparing a new application to run on the Mobil units to remedy this problem. I plan to start accepting new applications for EZ Ride accounts as soon as possible. We still need more experience with the system but we are getting there. Wayne reported that the new application being prepared for the mobil devices was reviewed last week and is a significant improvement over the previous version. There were a few glitches that were being address but overall, everything was getting better. There were essentially 2 issues, one being the speed in transmitting and receiving data and in the range of the mobil devices. The new application addressed to some degree both issues. Wayne also reported that he and John Crosby had met with an engineer from Time Warner who was going to prepare an estimate to have T W high speed internet installed at the ferry trailer. His initial estimate was between $1500 and $2000. The big advantage to TW is the up-load speed. We should have a firm proposal for the TW install in 2 weeks.

273 Leisure Lane Erosion issues  DEP  
Prior to 09/18/2010, see September 18, 2010 meeting minutes.

09/18/2010  The Landscaping Company will plant the required blueberry bushes as soon as they are available at the nursery. The final 25' will not be finished until a later date after the house is built.

10/23/2010  The landscape company, Clement Bros., has completed the re-vegetation of zone 1. This includes the planting of the blueberry bushes as well as the installation of the weed control under the rip-rap; and exposing the toe boulders which the DEP required. The Code Enforcement Officer has approved the re-vegetation but this still requires DEP approval. Wayne met with Mike Morse and Jeff Kalinich from the DEP on Wednesday October 20 to review the progress at 273 Leisure Lane.
While they did identify a few remaining issues, they were pleasantly surprised with the progress. They said they would relay there concerns to the DEP attorney handling the case. On Friday Wayne spoke with Mr. Zea. He said he had spoken with the attorney from the DEP and they agreed to wait until spring to see how everything survived the winter before doing anything more. John Thompson, Frye Island CEO has inspected the area and felt that the re-vegetation satisfied the Town’s requirements.

<td>The re-vegetation of zone 2 is complete with the exception of 25 feet around the foundation. This is required and will be completed once the construction of the home is finished. I am still holding $1,344.46 in addition to the $5,000 fine and the $5,000 escrow that was paid earlier. The $1,344 is in the liability account to be paid after the final 25 feet are re-vegetated. Wayne spoke with Mr. Zea on Friday October 24th and was told that Mr. Zea had hoped to get a building permit this fall so that construction on the house could begin early but he was unable to. This will be done in the spring.</td>

At the request of the ExCom, I checked with our attorney about placing liens on Mr. & Mrs. Zea’s properties on the Island to protect the Island in the event that the properties at 273 Leisure Lane and Ivy Circle were sold. He stated that the note to the Town is only signed by Alison. The debt is personal. To get the ball rolling we would need to formally make demand on her giving her “X” number of days to pay the note in full. Assuming that she did not pay the note balance, we could then file a collection lawsuit against Alison and seek a prejudgment attachment in Maine Superior Court. Under the Note the Town is entitled to recover legal costs. A motion was made by Mr. Kuiken and seconded by Mr. Thomas to advise our attorney to formally make demand on the note with a due date of May 13th 2011. The motion passed with 7 votes in favor, 0 opposed. The ExCom felt that this date would give Mrs. Zea time to get the Island property appraised for additional financing.

We did not receive the payment due on the 13th but Mr. Zea did tell Mr. Kuiken that he should be able to pay the debt in full on or about May 20th. Wayne explained the legal process if a complaint was filed in Superior Court with an estimate of 6 to 9 months to complete the legal process. A motion was made by Mr. Thomas with a second from Mr. Nun to give Mr. Zea until the end of business on Friday May 27th to pay the debt in full. If payment isn’t received on or before that date, Wayne is to have the Town attorney file the complaint in Superior Court on Tuesday May 31. The motion passed with 7 in favor and 0 opposed.

Beach Nine

Prior to 09/18/2010, see September 18, 2010 meeting minutes.

09/18/2010 The ExCom discussed the legal correspondence from the Town attorney and the Leonard’s attorney in executive session. To date, no agreement has been reached on a resolution; however, the Executive Committee is committed to resolving this issue.

10/23/2010 The ExCom adjourned to Executive Session to discuss the legal aspects of the encroachment onto the public area of Beach 9 and the claim of “Adverse Possession” filed by the Leonard family. Following the Executive Session, a motion was made by John Nun and seconded by Mark Thomas to recommend to Frye Island Incorporated that an easement be granted to the Leonard family for the existing portion of the septic system and the parking area that was on Frye Island Inc property but to grant no concessions on the beach area. Furthermore, any future rebuild of the septic or parking area had to be in the same exact footprint of the existing system or on Leonard property, there could be no further encroachment onto FII property allowed. The motion passed with 6 in favor. Mr. Kuiken abstained. Wayne was instructed to notify the attorney of this position and to have the boulders removed by the time the Island closed.

12/04/2010 The boulders have been removed, we have not heard anymore from Mrs. Leonard’s attorney at this time.

01/29/2011 No Change

04/02/2011 The Town received a letter from the Town attorney stating that Mrs. Leonard would accept the last offer that the ExCom made. The legal aspects of the issue and the potential for litigation were discussed in Executive Session. Following Executive Session, a motion was made by Mr. Thomas and seconded by Mr. Donohue to agree to the final offer with the understanding that the boulders were already removed and would not be replaced. Instead, a sign could be placed on the beach identifying the portion that Mrs. Leonard could use exclusively. The motion passed with 7 votes in favor and 0 opposed. Wayne will notify the Town attorney to finalize and formalize the agreement.

05/14/2011 The final proposal from the Executive Committee has been transmitted to Mrs. Leonard through her attorney. She had some reluctance about the need to replace the septic system on her own lot if the existing system failed and couldn’t be replaced in the existing footprint. The Code Officer confirmed that in most cases a failed system could be excavated and replaced in its own footprint. This information was relayed to Mrs. Leonard. We have had no additional word from the Leonards.
Use of Frye island Facilities (Beaches) by non-residents

Wayne / Marina Committee / DPW

Prior to 09/18/2010, see September 18, 2010 meeting minutes.

09/18/2010 Wayne met with Nancy Donio, Chair of the Beach Committee. She will be preparing her recommendations for the beach signage. This probably won't happen until next season.

10/23/2010 Nancy Donio has recommended new signs to reflect the Beach Ordinance and relocating the signs when installed to be more visible. Wayne will work with Public Works to address this recommendation.

12/04/2010 No Change

01/29/2011 No Change

04/02/2011 No Change

05/14/2011 No Change

Health Insurance Rates

Wayne / Executive Committee

07/31/2010 Wayne reported that he had a brief discussion with the representative from the Maine Municipal Employee Health Trust (MMEHT) and was informed that the health insurance rates for next year would increase 12% and the dental rates were increasing 5%. Wayne is going to schedule a meeting with the representative to discuss available options.

08/21/2010 No Change

09/18/2010 No Change, Wayne is still trying to get additional quotes on supplying medical insurance.

10/23/2010 Wayne has looked into this, as we have a number of other municipalities, and the cost and benefits offered by the MMEHT are competitive with all other plans available. However, there are options available that should be discussed with the possibility of modifying the personnel policy. A summary of the MMEHT plan is attached. This issue will be addressed at a later meeting.

04/02/2011 No Change

05/14/2011 No Change

Tennis Courts

John Crosby / Wayne

07/31/2010 Brian Riley spoke on the disrepair of the tennis courts at the Community Center and the fact that the courts at Lancaster Loop were oriented east-west which makes it very difficult for the better players to use these courts because of the sun. Apparently, the courts were originally oriented north-south but at some point were changed. The Committee asked Wayne and John to review the courts and the available options and report to the Committee.

08/21/2010 Vermont Tennis was contacted to review and evaluate our tennis courts. It was their opinion that it would not be cost effective to re-orient the courts at Lancaster Loop. They felt that they should be resealed and re-striped, but left as they are. In their opinion these courts would be fine for the majority of the people. Their proposal to seal and stripe these courts is $5,047 plus $3,300 to remove and reset the fence on the Highpoint Drive side. The courts at the Community Center are a different story. They need to be dug out and replaced. We have a price from Frank Snow to rebuild these courts for $77,870. This proposal does not include the sealing and striping. Vermont Tennis has provided a quote of to do the sealing and striping for $6078. They will be providing a quote to replace the courts as well. The old courts at the Recreation Area were checked and it was determined that those courts would not be worth trying to resurrect. The Recreation Commission has suggested converting those courts into a volleyball, bocce, horseshoe area. I have asked Ken Thurston for a proposal to clear that area. In addition, the basketball court should be resealed and repainted. Vermont Tennis will include this for $2777 if they are on Island to do the other work. The ExCom asked if it would be wiser to build new courts at a different location, possibly the old recreation area or the golf course. A possible use for the Community Center courts could be for skate boarding. Wayne was asked to have the Recreation Commission develop a long term plan for recreational facilities.
Wayne met with Andrea Sansonetti, chair of the Recreation Commission. I asked her to work with the Commission to develop a “mission statement” and to develop a long term plan for all of the recreation facilities. She said she would work on this; most likely via e-mail over the winter. I also suggested that she contact Brian Riley for his input into the Tennis facilities on the Island. It was suggested that those interested in tennis form a committee to pursue means of funding improvements to the tennis facilities.

09/18/2010

01/29/2011
No Change

04/02/2011
The ExCom needs to decide if it wants to spend the money to re-seal and re-stripe the Basketball Court ($2777) and the Lancaster Loop tennis courts ($6078). It was decided to table this item until the next meeting so the ExCom could review both sites.

05/14/2011
The consensus of the ExCom was that it is important to maintain the recreational facilities we have and therefore, the basketball court and the tennis courts at Lancaster Loop should be sealed and restriped. A motion was made by Mr. Thomas with a second from Mr. Nun to appropriate up to $3,000 from the Island Improvement Reserve to seal and re-stripe the basketball court and up to $6500 from the Island Improvement Reserve to seal and re-stripe the Lancaster Loop tennis courts. The motion passed with 7 votes in favor and 0 voted opposed.

Purchase 3” water distribution pipe for Leisure Lane

Executive Committee

10/23/2010
We would like to purchase the pipe for Leisure Lane before the Island closes this year so that it will be available as soon as the Island opens next spring. We have a proposal for the pipe of approximately $29,000 for enough 3’ pipe to complete Birch Road to the intersection of Leisure Lane (near the Marina) and all of Leisure Lane, including the north end, to Sunset. Wayne reported that there was presently a shortfall of approximately $5000 in the existing water line replacement account but approximately $29,000 remaining in the reserve account. A motion was made by John Nun and seconded by Mark Thomas to move the remaining money in the reserve account to the expense account. Following the discussion, it was decided to move $5000 to the existing operating account and to establish a phase 4 account and transfer the remaining $24,000 to the phase 4 account. John Nun made that a motion seconded by Mark Thomas. The motion passed with 7 in favor.

12/04/2010
The piping for the next phase has been ordered and delivered to the Island. The supplier has agreed to accept ½ of the payment this year and the remainder next year after the new budget is in affect. The expense detail for phase 3 of the water line replacement shows a negative balance of -$4,812.28. I request that we transfer an additional $4,812.28 from phase 4 to phase 3 to balance this account. A motion was made by Mark Thomas and seconded by Jim Kuiken to transfer $4,812.28 from phase 4 of the water line replacement project to phase three. Following a discussion and explanation, the motion passed unanimously.

01/29/2011
The piping was purchased and delivered to the Island before the Island closed. One half of the cost of the pipe ($14,294.75) was paid in December 2010. The second half of the cost of the pipe remains outstanding. I ask the ExCom to approve transferring $12,294.75 from the Water Reserve to the Water System Improvement operating account so that we can pay this invoice.

04/02/2011
The new water line is on site and we hope to be able to get some of the line installed on the north end of Leisure Lane before the Island opens. This could provide better traffic routing on the heavily populated Leisure Lane during the remainder of the installation process.

05/14/2011
Wayne explained that Jeff Snow had accepted a new position and had worked his last day. John had had put together a number of options assuming 40 hours per week and a 24 week season. It was estimated that we still have 3 to 4 years left to complete the major portion of the water distribution system. The options included the following:

1. Purchase Jeff Snow’s equipment, and hire an operator. With the insurance the cost would be $90,900 for the first year and then the cost of the operator and the insurance for the remaining years.
2. Ben Knight $100.00 per hour for 40 hrs per week for 24 weeks = $96,000
3. Frank Snow - $140.00 per hour for 40 hours per week for 24 weeks = $134,400
4. P&K - $140.00 per hour for 40 hours per week for 24 weeks = $158,400

After much discussion a motion was made by Mr. Nun with a second from Mr. Thomas to appropriate up to $60,000 from the Island Improvement Reserve to purchase the Excavator, the tri-axle dump truck and trailer and the loader from Jeff Snow. The funds to be paid back to the Island Improvement Reserve from the Water Reserve at a rate of 1/3 of the purchase price per year for three years. The motion passed with 7 votes in favor and 0 opposed.

<tbody>
<tr>
<td>12/04/2010</td>
<td>We have found an accounting firm, Purdy Powers &amp; Company that will assist the Town in the checking account reconciliation process.</td>
</tr>
<tr>
<td>01/29/2011</td>
<td>Dena McVane from Purdy Powers has been to the winter office a few times to work on the checking account reconciliation and plans to resume her effort the last week of January. She is through July, 2010 and hopes to be able to finish when she returns at the end of this month. She has reached the same conclusion that we did in that the difficulty in the reconciliation process is the timing involved with processing of the credit cards transactions. We have discussed a couple of possible internal changes to the way we process these transactions to make the reconciliations easier but will wait until she is finished before we develop any procedures. I spoke with Dena on Monday 01/24. She has completed the reconciliation through the end of 2010. She is going to prepare an Excel spreadsheet identifying her findings and the adjustments needed.</td>
</tr>
<tr>
<td>04/02/2011</td>
<td>The reconciliation has been done. Dena and Joe Potts are working out the details of the journal entries to finalize the reconciliation for 2010. Following the posting, we will get the reconciliation up to date for 2011.</td>
</tr>
<tr>
<td>05/14/2011</td>
<td>Dena McVane visited the Island on Friday May 6th to work with Calvin on the reconciliation of the checking account. When she arrived Calvin had completed the process and the account was reconciled. A glitch was discovered in the TRIO reconciliation module in that the adjustments made on May 1st to include April's credits and debits from external sources actually showed up in May in the reconciliation module. Wayne explained that we are looking into ways to prevent this in the future. Wayne also explained that there were no credit card transactions in April which makes the reconciliation easier. We have implemented some internal procedures which should help improve the reconciliation process. The reconciliation for May will be a good test.</td>

<td>12/04/2010</td>
<td>The Executive Committee held a discussion about the funding options for the Long Term Transportation Reserve. Mark Thomas presented the thought that 35% of the trips on the ferry are made by non-Islanders but the LTT Reserve is funded solely by Island property taxes. It was his thought that the ferry fees should be adjusted in some way so that the non-islanders contribute to the LTT Reserve as well. There was a considerable amount of discussion on the possible options. The Treasurer volunteered to develop a Model to evaluate changes in ferry ticket pricing to create possible methods to provide funding to the LTT Reserve and to provide a way to give FI property owners a ferry ticket discount unique to them. The ExCom agreed that the Treasurer should develop the model and have the model available by the January 2011 meeting. The Treasurer has forwarded a model to all of the ExCom members for review and comment. This will be discussed further at this meeting.</td>

<td>The prospect of developing a three tier ferry pricing structure to be presented at the October Town Meeting was discussed. Resident ticket sales account for approximately 65% of the ferry revenue and, through taxes contribute approximately $100,000 to the LTTR annually. Therefore, non-resident ticket sales should contribute an additional $35,000 (35%) to the LTTR. The Treasurer has agreed to develop a draft version of a three tier pricing structure for review at the next meeting.</td>

| 05/14/2011 | No Change                     | Both proposals assume that the support timbers do not need to be replaced. If they do there will
be an additional $15,400. This will have to be determined once the decking has been removed. A motion was made by Mr. Thomas with a second from Mr. Nun to appropriate up to $26,000 from the Ferry Capital Reserve to replace the decking on the mainland Gantry and up to $15,400 to replace the timbers if necessary. The motion passed with 7 votes in favor and 0 opposed. Completion of this project has to wait until the Island closes and will take a couple of weeks to complete.

Employee Handbook

Mr. Kuiken raised some questions about safety policies and employee policies and questioned if the Town would be prepared for an OSHA inspection. Wayne reported that the Maine Department of Labor had safety jurisdiction over municipalities in Maine and had conducted an unannounced safety inspection in 2009. They did discover some violations but none considered extremely serious and all were corrected. Wayne also reminded the ExCom that a fairly comprehensive Employee Handbook was approved by the ExCom in April of 2010. He agreed to forward a copy to the ExCom and to Joe for inclusion on the web-site. However, it would be a good idea to review the handbook periodically and Wayne will include this on the agenda for the next meeting.

04/02/2011

The employee manual was distributed to the ExCom following the last meeting. This was tabled until the next meeting. Wayne was asked to consider including Columbus Day as a compensated holiday.

Other Old Business

Disposition of tax acquired property

Mr. Donohue asked about the policy to dispose of tax acquired property. Wayne explained that the policy is on the Frye Island web site with the ordinances. Wayne agreed to check with the Town attorney to clarify the legal requirements if the Town elects to sell tax acquired property and if the Town can place restrictions on the property being sold.

05/14/2011

New Business

Warrant Article for Financial Authority

Mr. Potts presented a warrant article for the October Town Meeting for ExCom review which defined the voting authority of the ExCom. The consensus of the Committee was the more members involved in the voting process the better. Wayne was asked to check with the Town attorney to insure the warrant article as proposed didn’t conflict with the charted or with State statutes.

05/14/2011

Establish the meeting schedule for the season

The ExCom established the following schedule for the 2011 season:

- Friday ..........June 24th ....6:00PM
- Saturday ........July 16th ....9:00AM
- Saturday......August 13th...9:00AM
- Saturday.......September 3rd......Public Hearing for the budget following the FII meeting.
- Saturday.......September 17th & 24th ......9:00AM
- Saturday.......October 8th Town Meeting 9:00AM
- Saturday ......October 15th 9:00AM
- Saturday.......December 3rd...9:00AM by teleconference..

05/14/2011

Review Frye Island Purchasing Policy

The purchasing policy was last reviewed and approved in 2001; Wayne was asked to review other municipal purchasing policies and make recommendations for the next scheduled meeting.

05/14/2011

Additional software for E-Ticket Program

Starlit was asked to provide an estimate to prepare an application for the ticketing process in the office that would provide a method to process ticket sales during periods when the internet is unavailable. Their estimate to prepare this software was $6200 to $7500. A motion was made by
Mr. Thomas with a second from Mr. Nun to appropriate up to $7500 from the Ferry Capital Reserve to contract with Starlit Software to prepare the program. The motion passed with 7 votes in favor and 0 opposed.

**Liquor License for Frye’s Leap Store and Cafe**

05/14/2011 The Selectmen approved the liquor license for the Frye’s Leap Store and Cafe

**E-911 Addresses**

Wayne explained the recent issue with the E911 addresses and the inconsistencies in the Frye Island road numbering system. The street numbering convention followed by most municipalities is to have odd numbers on one side of the street and even on the other. The unorthodox system generated by the developer of Frye Island has created issues since the introduction of the E911 system. Wayne was asked to review the program the State offers to help communities develop an E-91111 home numbering system.

**SAD 6 Budget Validation Meeting**

05/14/2011 The selectmen signed the warrant for the budget validation meeting

**Review the contract benefit regarding ferry usage**

A motion was made by Mr. Thomas with a second from Mr. Nun to approve the policy defining the contract benefit for ferry usage. The motion passed with 7 votes in favor and 0 opposed.

**Hokes Bluff Ferry**

Recent information indicates that the Hokes Bluff ferry may become available again. Wayne was asked to check with contacts at the State and Federal levels in an attempt to determine the status of the ferry and if funding for the relocation of the ferry might be available.

**Other New Business**

Meeting Minutes: Approve the minutes of the April 2nd Executive Committee meeting
Treasurer’s Report: No additional report
Golf Report: No report
Marina Report: Dave Bond reported that the Marina Committee will meet on Memorial Day.

**EXECUTIVE SESSION**

None

**ADJOURN**

A motion was made by Mr. Thomas with a second from Mr. Nun to adjourn the meeting at 1:51PM.

Respectfully Submitted:

Wayne M. Fournier
