MEETING AGENDA FOR THE
SELECTMEN /EXECUTIVE COMMITTEE
MEETING 06/22/2013
TOWN OF FRYE ISLAND

The following members were present:
Mark Thomas – Selectman-Absent
Brian Walker – Selectman
John Nun – Selectman
Dave Bond
Bob Sutherland
Gary Donohue
Tim McCarthy

Town Manager: Wayne Fournier
Treasurer: Joe Potts
Others in attendance:
Phil Perry
Nancy Perry
Karen Spring
Theresa Gibson

PETITIONS FROM THE PUBLIC
Nancy Perry questioned the use of the police officers to provide EMS coverage after the warrant article was defeated at the October 2012 town meeting. She also stated that there were some Islanders that had said they would be willing to volunteer to take the course and help the Island. Wayne explained that he had discussions with Chief Persson and although he had talked with some Islanders about volunteering, he did not have any names. The training program is quite involved and takes about 6 months to complete. In February we still had no volunteers to take the program and Chief Beaulieu was asked to help out. Discussions about the way the service was being operated followed and Chief Persson decided to resign. At that point the ExCom assigned the EMS coverage to the Police Dept in order to insure we had first response coverage during the coming season. There were some people that said they would be willing to help as the second tier if no one else was available but they didn’t want to be scheduled or carry a portable radio. Unfortunately, this unscheduled service would prove to be of little help. It was also determined that we could best serve the Islanders if we were able to transport patients to the mainland if necessary to get them to the Advanced Life Support provided by Raymond when necessary. Nancy also asked about the reorganization of the Fire Department. Wayne stated that while he was pushing to get some of the necessary work done, some of the volunteer firemen had also resigned but because of that a number of Islanders volunteered. Wayne felt that having volunteers from the Island really helped the response time of the Dept.

EXECUTIVE SESSION
A motion was made by Mr. Walker to adjourn to Executive Session at 0835 to discuss personnel issues in accordance with the requirements of 1 M.R.S.A. § 405(6)(A) . The motion was seconded by Mr. Nun and approved with 6 votes in favor and 0 opposed.
The ExCom returned from Executive Session at 0912 and the regular meeting was re-convened. The staff appointments were discussed in case Mr. McCarthy had to leave early. (See Below)

fund the final design was approved at the 10/08/2011 Town Meeting. Mr. Bond acting on behalf of the Executive Committee and the Transportation Committee agreed to contact Land Services Inc. to initiate the project.

12/03/2011

No Change

A copy of the design plan submitted by Land Services Inc had been circulated to the ExCom. The plan was modified slightly to provide parking perpendicular to the Ring Road instead of parallel to the road. The ExCom members saw no issues with this change. It is the intention of Land Services Inc. to present a preliminary design to the Raymond Planning Board for its March or April meeting. Wayne will notify LSI that the modification to the parking was acceptable.

Pat Cayer from LSI has the plan ready for submittal to the DEP. He wanted to schedule a meeting with the ExCom and the Transportation Committee to review the final plan but it was almost impossible to schedule a date that would fit everyone’s schedule. Dave Bond asked Wayne to see if Pat could send a PDF of the plan for review. Wayne said he would contact Pat and get it done.

The final design plans have been received from LSI and forwarded to the transportation Committee for review. The only noted change was a minor relocation of the end of the ferry access road to better accommodate traffic flows. Wayne said he would send copies to the ExCom members for their review.

The Transportation Committee met with Pat Cayer and Mark Gray to review the plans for a final time before submitting to the DEP and the Town of Raymond Planning Board. It was decided to pave a portion of the Ring Road because of the slope and the concern for erosion. It was surprising to learn that paving actually was beneficial to the phosphate calculations, relative to non-paved areas. It was determined that signage had to be addressed before submitting the plans to Raymond. Wayne has signed the Planning Board application and delivered the check in the amount of $1623 to Pat Cayer for inclusion with the Planning Board. In addition, Wayne has received the DEP application from Mark Gray for the Storm Water Permit. Mr. Nun made a motion authorizing Wayne to sign the permit application. The motion was seconded by Mr. Thomas and passed with 7 votes in favor and 0 opposed. There is a $250 application fee that must accompany the submittal.

The Raymond Planning Board met to review the site plan application that Frye Island submitted. In addition to the Planning Board, and the engineers representing Frye Island, there were a number of residents from the lower Cape Road in attendance. A few spoke in opposition to the park & ride for various reasons including safety at the crossing area, additional traffic on Quarry Cove Road, security, lighting etc. The Planning Board suggested a site walk which was scheduled for Monday July 16th. In addition, it was suggested that a traffic engineer be employed to help quantify the traffic in the area and review site lines etc. We are waiting a cost estimate from a traffic engineer recommended by Mark Gray.

We have an estimate of $2500 for the traffic study. Wayne gave the engineer the OK to perform the study. We don’t expect to be ready for the Raymond Planning Board again until September.

We had a meeting with the design engineers was held on 09/14/2012. Pat Cayer, Project Engineer, Mark Gray, Civil Engineer, and Bill Eaton, Traffic Engineer, were present. In addition, John Crosby, John Nun and John Schutz were there. There is still some work left to do on the traffic study report. The 2 biggest complaints to the park & Ride proposal, as presented to the Raymond Planning Board and the local residents, were the additional traffic on the Quarry Cove Road which would require additional maintenance, and the potential safety issue created by the need to cross the Cape Road to get from the P&R and the access road. I have also heard concerns from some residents about the need for Islanders to drive past the access road to the Quarry Cove Road to get to the P&R and then to the ferry. Pat presented an option to re-route the Cape Road to the Ring Road which eliminates all of these concerns. All of the engineers present felt this was a better long term solution. The traffic engineer is going to finalize his report and Pat is going to develop a cost estimate to engineer the additional option and what a ball park cost would be to construct the 2 options. The members of the ExCom indicated that
Wayne reported that we are still waiting for the traffic study from the engineer. At this time we are not sure if we will make the November Planning Board meeting.

Wayne reported that the engineer wasn’t ready for the December meeting so the plan is to be on the January agenda. Mr. Bond has agreed to represent the Town at the meeting.

The meeting with the Raymond planning Board has been rescheduled for February 13th. We are accruing additional expenses for this project. They include the escrow account required by the Raymond Planning Board ($3629), Traffic Study ($990) and additional engineering costs. A motion was made by Mr. Bond to appropriate $10,000 from the Long Term Transportation Reserve. Mr. Walker seconded the motion. Mr. Potts told the ExCom that there were 2 projects concerning the park & ride facility that were open. The one containing $1528.16 would be closed and the remaining funds returned to the LTTR. The other (Park & Ride Engineering) would remain active and the additional funds, if appropriated, would be applied to that account. There was no further discussion and the motion was approved with 6 votes in favor and 0 opposed.

The last meeting of the Raymond Planning Board was scheduled for March 13th however; we received a notice from the Town of Raymond that we had to add an additional $10,000 to the escrow account to cover the costs of their contracted planner and their attorney. Their Site Plan Review ordinance specifically says that the property owner would be responsible for all expenses arising from an engineering peer review but says nothing about legal fees which in this case total approximately $5,200.00. Wayne spoke to Raymond officials about this charge but they insisted that we have to pay it before we can continue the site plan review. The Executive Committee decided to forego the March meeting of the planning board and review the process at this meeting. Wayne provided a breakdown of the costs to date. The executive Committee requested more detail of these costs which Wayne will provide. It was decided that the project to build the “Ring Road” should be placed on hold until a public information hearing could be held on the Island to explain the process, answer questions, and to correct some of the misconceptions. However, Wayne is to explain to Raymond officials that we are not abandoning the project but need some time to meet with Frye Island residents as long as the delays do not adversely jeopardize the process.

It was determined that a postponement would not adversely affect the process. Wayne has distributed a breakdown of the current project costs to the ExCom. Wayne was asked to get as much of the information as he could on the website. It was decided to hold the public hearing on Saturday May 25th at 9:00AM in the Community Center. Dave Bond and Wayne will moderate the meeting.

The Public Hearing was held on Saturday May 25th. 84 people signed the attendance sheet. Wayne opened the hearing and gave a little history of the purchase of the property on the mainland and the establishment of the Transportation Committee (TC). Wayne mentioned that the TC determined very early that there were 2 issues that needed to be addressed concerning the traffic on the mainland. The first was the parking and the second being the safety hazard created when the queue waiting for the ferry extends onto the Cape Road. Wayne also described a number of options the TC addressed in order to determine a way to increase the number of vehicles that could be transported to the Island in order to keep them off the Cape Road. The TC ultimately determined that the best option available was to develop the “Ring Road” to eliminate the parking issue on the access road and the Cape Road and to provide an area for queuing when necessary. Dave Bond then presented the all inclusive conceptual plan and then the Ring Road concept that was being considered by the Raymond Planning Board. The project is still on hold so the ExCom will have to determine whether to continue with the approval process. A motion was made by Mr. Bond to appropriate $12,000 from the Long Term Transportation Reserve to continue the review process. The motion was seconded by Mr. Nun and approved with 7 votes in favor and 0 opposed. Wayne will notify Raymond to
Wayne reported that the Town of Raymond has been notified to place Frye Island on the July Planning Board agenda and Wayne asked if they needed anymore information for the meeting. Wayne has also asked Calvin to prepare a check to satisfy the escrow.

**Installation of New Water Distribution Line**

09/17/2011 Tropical Storm Irene and the required clean-up delayed the water line installation some. However, the crew has been doing a great job and is progressing better than expected. They expect to be at the intersection of Leisure and Birch before finishing for the season. The street and house connections will be completed after the Island closes for the season.

10/15/2011 Wayne explained that the installation had been concluded for the season at the intersection on Leisure Lane and Birch Road. The street and curb connections will be completed after the water system is shutdown for the season. We estimate 2 more years to complete the installation of the main distribution pipe. Birch Road, which should be relatively easy because of the limited number of house connections, and Leisure Lane from Birch Road to Birch Road remain to be done. The side streets and circles will be completed on an as necessary basis.

12/03/2011 All of the connections to the new water line were completed after the Island closed.

04/28/2012 No Change

The Public Works Crew has been installing the new pipe on Leisure Lane as time has permitted. The installation crew has returned to the Island so the progress should increase. John reported that he should have enough pipe to finish Leisure Lane and Birch Road.

12/01/2012 The work on the water line is finished for the year. All of the connections are complete.

06/22/2013 No Change

E-911 Addresses

Wayne has spoken with the State E911 coordinator. She has sent an E-911 map book which identifies all of the roads on the Island with the number ranges that they have on record.

09/17/2011 Wayne indicated the first step in the process was to review all of the roads that on the E911 map book for accuracy. This will probably extend into a winter project. For more information see the minutes of the 08-13-2011 meeting.
Wayne and John need to meet to identify the road names that are very similar and decide on new names. These, one approved by the ExCom, will be submitted to the State for inclusion on the 911 maps. Then the numbering can begin.

No Change. Wayne is setting up a meeting with John Crosby, Chief Persson and Chief Beaulieu. Wayne is trying to schedule a meeting with Chief Persson, Chief Beaulieu and John Crosby to review the information and the maps of the Island provided by the State.

Wayne met with Chief Persson, Chief Beaulieu, & John Crosby. The Island maps provided by the State were reviewed it was determined that there were seven roads that might need a name change to eliminate potential confusion:

1. Leisure Lane (south of Sunset) change to Lake Shore Drive
2. Paddock Circle
3. Birch Road change to Blueberry Lane (to differentiate from Birch Circle)
4. Harbor Lane change to Poplar Road
5. Hillcrest Drive change to Foothill Lane to differentiate from Hillside and Hilltop
6. Hillside Drive to Mountain Road to differentiate from Hillcrest Drive and hilltop
7. Leap View Circle change to Cape View Circle to differentiate from Lake View Circle.

No Change. Mr. Bond asked if the new street names had been finalized, he apparently is getting some disagreement on the names that were presented. Wayne stated that they were not and if there were other suggestions he would like to hear them.

Wayne reported that he will assign new E-911 addresses to a map during the winter so that a public hearing can be held in the spring to discuss the numbering system and potential changes in street names.

No Change

Wayne will hold a public information hearing when the Island opens to determine new street names for the ones that have been identified as needing changing to avoid confusion.

Wayne opened the hearing by describing the need to develop a more conventional E-911 street numbering system. The first step in the process is to review all of the street / road names and change the ones that are so similar they could cause confusion. This has been done and we are accepting suggested name changes. Wayne is still receiving street / road names. The plan is to meet with Frye Island Fire and EMS / Police and Raymond to review the names that have been submitted and provide the ExCom with the final suggestions.

Sebago Lake Projects

ExCom – Wayne – John

Last Year Betty Williams submitted a proposal to acquire federal funding, on behalf of the Lake Region communities, for a number of erosion control projects. The following projects were submitted for Frye Island:

1. Leisure Road – beaches #3, 4 & 6 for a total cost of $12000. The grant can pay 60% or $7200 and the town/public works would be responsible for the 40% or $4800
2. Sunset Road – Improvements include ditches, turnouts, check dams and a level lip spreader. Total cost $1800. Grant pays $1080. Town/public works pays $720
3. Ferry Landing Area – add surface material, grade, and pave over 20,000 square feet. Total Cost $35,000. Grant pays $21000. Town pays $14,000.

Last year's request was denied. However, she resubmitted the same request this year and this year it got approved. I received the following email from Nate Whalen. He is the Island’s representative from the Portland Water District. Will the ExCom approve these projects?

Hi Wayne and John,
There is a federal grant for road work on Sebago Lake available to Frye Island. The goal of the grant is to reduce storm water run off. The grant is administered by Betty Williams of Cumberland County Soil and Water Conservation District. The Island needs to do $15,000 worth of work to get an additional $30,000. You will get $45,000 worth of work for $15,000.

A motion was made by Mr. Thomas to appropriate up to $19,525 from the Island Improvement Reserve to pay the Town portion of the projects identified above. The motion was seconded by Mr. Nun and approved with 7 votes in favor and 0 opposed. However, there was opposition to the paving of the Ferry Landing area and the ExCom wanted all alternate options reviewed before paving and paving would require approval from the Town before proceeding. Wayne will sign and forward the approval letter to Nate Whalen at the Portland Water Dist.

02/04/2012 No Change
Program has changed so that only actual cash outlay required is $3500. Additional matches include planning labor and construction costs. Wayne and John will meet with the representatives from the Portland Water District soon to discuss the details of the projects.

04/28/2012 Wayne mentioned that a meeting has been scheduled for May 24th with the Portland Water District and an engineer from Cumberland County to review the details of the projects. They still feel the fix for the downtown area is to pave it with the proper swales to direct the storm water to the catch basins that were installed a few years ago. However they are aware of our concerns and will review everything to make this the last resort design. If it got to this, they indicated a willingness to come before the ExCom with their proposal once they had it finalized. They would also be willing to attend a public hearing and the Town Meeting if the ExCom felt they should.

06/16/2012 John Crosby and John Thompson met with the engineer from Cumberland County to review all of the potential projects. The “Downtown” area was discussed at length. The engineer is going to design a run-off system using pre-cast concrete to catch and direct the storm water to the catch basins. A meeting has been scheduled for Tuesday, 6/19, with the engineer from CC Work has begun on Beach 3, John and Wayne met with the engineer and the representative from porous Technologies regarding the porous concrete storm water system for the downtown area. The engineer is preparing a draft plan using the concrete sections so a cost can be determined.

07/14/2012 Beach 3 has been finished except for the planting of vegetation along the northern property line. We have not received the plan from the Cumberland County engineer.

08/18/2012 Wayne reported that the work on Beach 3 had been finished and some work around the ferry haul-out had been done. The invoice for the completed work has been sent to the Project Manager for Cumberland County.

09/22/2012 We have also completed the planned work around the ferry haul-out facility and the documents are being prepared to send to the CC Project Manager.

10/20/2012 No Change

12/01/2012 Representatives from both Cumberland County and the DEP visited the Island to review the progress made on the sites we have addressed. They were pleased with the results of the Beach 3 and the ferry haul-out projects. Wayne has forwarded all of the information, including invoices, to the Cumberland County representative.

06/01/2013 We have received a check for $2557 which covers the material costs. Wayne will check on reimbursement for labor costs.

06/22/2013

Community Center Siding

ExCom / John Crosby / Wayne

Wayne reported that the installation of the vinyl siding on the Community Center was not done very well and the best repair was to remove the siding and reinstall it. We had a proposal from Sibley Construction Co. to do this at an estimated coast of $7,000. We agreed to attempt to get...
Lakes Region Management Co., the installer to cover the cost of this repair.

Lakes Region Property Management was contacted. They inspected the building with the supplier and they have called in the manufacturer’s representative.

It appears that Hancock Lumber Co, the supplier of the siding, feels there is a problem with the siding. They have been told we expect it repaired or we will take legal action. The supplier is supposed to visit the Island to review the siding this week. It was noted that the siding appears to be melting in a couple of places.

An inspector for the manufacturer has reviewed the building. She identified some issues with the installation and indicated that the siding was a good quality and couldn't explain the “melting” problem. We have not seen her report yet. The Executive Committee agreed that to go another winter without an acceptable resolution could cause damage to the building. It was decided that the appropriate recourse for the Town was to go after the installer. Therefore we will inform the installer that if there is no action taken or plan of action prepared that will rectify the issue before winter we will have the Town attorney begin legal proceedings to resolve the issue.

We have received the report from the inspector. Very basically it points the blame on the installer. Wayne has received the name of a reputable siding company in Portland. The Town attorney has recommended we get another opinion of the installation in case we wind up going to court on the issue.

Wayne reported that Steve Shugars from Steven Shugars & Co. has inspected the building and provided a proposal to re-install the siding. He is recommending that we purchase new siding for the front of the building and reuse as much of the removed material as possible to repair the rest of the building. He has recommended that the old clapboards be removed also. It is not mandatory but to get the best job, it is preferred. Wayne is waiting for his report to forward to the Town attorney. The Town attorney has already had a discussion with Lake Region’s insurance co.

We have received notification from the Town attorney that Lake Region’s insurance company has denied the claim. The ExCom has asked Wayne to check on the limits for small claims court to see if this might be an approach. Wayne was also asked to see how we would proceed if we decided to sue the contractor through the regular court system, and to contact Mr. Clark to inform him of the Town's position to see if an acceptable resolution can be reached short of through the court system. It was also suggested that a notice be placed in the FINS informing the Town's people about the unacceptable project. Wayne said that he would check with the Town attorney to protect the Town from any possible law suit.

The upper monetary limit for small claims court is $6000. Recent information indicates that Mr. Clark has taken a job with the city of Portland and the status of Lakes Region Property Management Co. is in question. Wayne sent a letter to Mr. Clark in hopes of reaching a settlement short of litigation. Mr. McCarthy asked if there was a possibility of recouping any of the legal costs but Wayne said that he doubted it but would confirm with the Town Attorney. Wayne will also check to see the likelihood of winning a court case to insure the legal fees don’t exceed the worth of the case.

Wayne talked to the Town Attorney regarding the chance of recouping any legal fees and was told that there was very little chance. In addition, Larry Clough spoke with the attorneys in his firm that would actually litigate the case if we pursued it and they concluded that the legal fees would probably be more than we could get from a court decision. The Executive Committee was adamant in the need to inform all Islanders that the poor quality of the work performed by Lake Region Management Co. when siding the building would result in the need to spend more taxpayer money to correct the deficiencies.

Wayne has asked the two contractors to review their proposals and include pricing if the Community Center, the Administration Building, and the Club House at the Golf Course are all done at the same time. He is waiting for those proposals.
We are still waiting for the proposals but both contractors have said it would probably have to wait until fall because of previous commitments. Wayne stated that the plan was to purchase new siding for the front of the building at a cost of about $7300, then use the rest of the siding to re-side the sides and the rear of the building. To remove the old clapboards before re-siding would cost an additional $4300. However, both contractors said it would provide a better surface to side but it wasn't necessary.

Record Retention / Town Office
Wayne / ExCom
The State requires that some municipal records be retained for less than a year while other records must be retained forever. With the exception of our lot files, which have been scanned, all other files are paper copies. We built storage racks in the back meeting room and the kitchen area of the Admin building and these areas are over flowing now. State law also requires that these records be maintained in a fire proof vault. We are investigating ways to better store our Town records and historical files. No action taken at this time

Wayne indicated that there were a couple of lots adjacent to the golf course, and near the public works building that might support a new office building. The land was such that a daylight basement with access from Putting Hill Circle could serve as a record retention area and access from fairway lane could provide handicap access to the office. Wayne was directed to determine the square footage that would be required for a new office building. Wayne has received an estimate to construct a new office building for approximately $125,000. Wayne also mentioned that a recent inspection of the administration building determined that the foundation / supports for the rear of the building were failing and in need of repair. It was determined that an engineer should be hired to analyze the situation and design a repair so we can solicit proposals. Wayne was asked if he had checked on the cost of a bond to fund these projects if they were bundled together. Wayne checked with the Maine Municipal Bond Bank (MMBB) and interest rates were between 3% - 4%. They only issue bonds twice a year. The deadline for the fall issue was already past. The spring issue required applications to be submitted by February. We will plan to get all of the project costs together so we can apply in February if the ExCom decides to apply.

Repairs to the rear wall and apply vinyl siding to the Admin. Building
ExCom
The repairs to the rear wall are complete. Proposals are being collected to side the building with vinyl siding.

E-Ticket system
Wayne
Mr. Potts discovered an error in the “to” & “from” the island data. This occurs because there are times when the time/date stamp reverts to 2009. Some of the data collected uses the server time stamp and some use the MD time stamp. The “to/from” data uses the MD time stamp. It was discovered that when the MD’s loose power they default to 2009 and consequently the data doesn’t appear as one would expect. All of the data is available in the system but I decided not to pay the developer to dig it out unless we needed it. On a daily basis we use the shift management data to review operations. On another note, we are looking into the next generation scanner. The existing MD’s use the windows mobile operating system which is not being supported and is difficult to program. It still works but if we plan to continually improve the system we need to change these devices at some point. The developer has identified a "ruggedized" Android tablet device that could provide more versatility
including the ability to read bar codes from i-phones, read different bar-codes, attach to credit card scanners etc., and it is less expensive that the MD’s we are currently using. We plan to purchase one this year so we can test it before the season ends. Wayne also mentioned that a recent storm had taken out the wifi unit for the system. The device has been replaced but we don’t yet know the cost. Mr. Donohue told the ExCom that the felt we should pursue the use of credit cards for ticket purchases. There are devices available that can connect to the scanning devices that will process credit cards. Wayne will look into these devices also.

09/22/2012 No Change

03/23/2013 No Change

10/20/2012 Wayne has received inquiries from other ferry operators about the e-ticket system. The Chebeague Transportation Company has visited us twice and is very interested in a system similar to ours. The Town owns the software system that has been developed. Wayne will talk to the developers to identify compensation if others are interested in versions of our system. Wayne presented the draft proposal from the system developers. The ExCom felt that the agreement as proposed by the developers was not sufficient for the Town in light of the marketing possibilities by Starlit. Mr. Donohue and Mr. McCarthy agreed to work on a counter proposal to be presented to the developers.

01/26/2013 We have reached a verbal agreement with Starlit. Wayne is waiting for the written agreement from Starlit.

06/01/2013 No Change

06/22/2013 Wayne stated that the system appeared to be working well and he didn’t want to make any changes until after the high season.

**Community Center Kitchen**

Wayne reported that a public hearing had been held to get input for the kitchen. The people in attendance felt it should be “caterer friendly” and that it should be done right. Nancy Fournier agreed to head a committee to develop plans for the kitchen based on the guidelines from the public session. She has met with a commercial kitchen designer and has a preliminary plan that was distributed to the ExCom. She will be meeting with the designer again to develop the design for an exhaust hood. It was suggested that she get 3 quotes for the appliances. Nancy Fournier has received additional quotes for the appliances, and the hood and has a proposal from Sibley Construction for the additional structural work required. She estimates the total cost to be $45,000 or less. A motion was made by Mr. Nun to appropriate up to $50,000 from the Island Improvement Reserve for the kitchen renovations and the appliances.

Mr. Walker seconded the motion which passed with 6 votes in favor and 0 opposed.

The permits for the project have been pulled and reconstruction work is scheduled to begin next week.

The exhaust hood has been ordered and delivered; it will be installed in the spring. In addition, the appliances have been ordered and are being stored at the distributors until spring. These appliances were ordered to lock in the price because at least one, possibly two price increases are anticipated this winter.

01/26/2013 No Change

03/23/2013 No Change

05/11/2013 No Change

06/01/2013 Work on the kitchen has commenced. The estimate is that the work should be finished in a couple of weeks. The appliances are scheduled for delivery during the week of June 10th.
**Recreation Opening and Closing the Island.**

06/22/2013  The appliances have been delivered. There is still some trim work and some plumbing to finish.

**Save Our Sebago**

Wayne distributed a letter to the ExCom from Larry Plotkin updating the status of the efforts of Save Our Sebago to intervene in the re-licensing process of SD Warren to modify the Lake Level Management Plan. Wayne said that the Town joined with SOS last year and would continue to support SOS again this year.

The state legislature is now considering legislation which would require its review and approval before the DEP can issue a Water Quality Certification. If approved it would be retroactive and the WQC approved for the Lake Level Management plan would require the legislatures approval. Wayne provided written testimony in favor of the legislation for the

**Opening and Closing the Island.**

05/11/2013  Larry Plotkin meeting.

Mr. McCarthy stated that the process required to relocate the office in the spring and fall and the process to open and close the Island should be documented. Wayne said he would talk to John and they would work on it.

06/01/2013  Wayne has prepared a draft of the office move to the mainland. It has been distributed for comments.

06/22/2013  No Change

**Recreation – Long Term Plan**

The long term plan for recreation was submitted to the ExCom last year and tabled until the

05/11/2013  ExCom members could comment. To date we have not received any comments. In addition, I have a request from the Recreation Commission chair to develop the old tennis courts at
The annual appointments were discussed. Wayne had distributed the list containing the current appointees. The treasurer’s position was discussed in light of the fact that Mr. Potts had requested he not be re-appointed. Wayne had indicated that he would like to be considered for the position in light of the fact that this would be his final year as manager. Mr. Potts had nominated Marie Tedford for the position. Marie has a degree in accounting and has

**NEW BUSINESS**
experience at a number of other locations. Wayne has been manager since 2002 and has a great deal of town and financial software experience. Wayne was asked about the time required to perform the Municipal Treasurer’s position and the manager’s position and although this year will be busy he stated that he would do what ever was necessary to get both jobs done. While the ExCom felt that both candidates were qualified Mr. McCarthy and Mr. Donohue stated that they couldn’t support the concept of going from 2 jobs to 1 and then possibly back to 2 again; feeling that it would create the wrong image. A motion was made by Mr. Walker to appoint Wayne Fournier as Municipal Treasurer. The motion was seconded by Mr. Bond and approved with 4 votes in favor. Mr. McCarthy and Mr. Donohue opposed. A motion was made by Mr. McCarthy and seconded by Mr. Walker to approve the remainder of the appointments as presented. Mr. Nun asked if the Animal Control Officer function could be performed by the Police Officers. Wayne stated that one of the Police Officers was certified as an ACO and he could help when scheduled but Linda Alexander was State certified and was the Deputy ACO in Raymond and would be available when needed. We would have to pay her expenses when and if she responds only; she is not on any type of retainer. The vote was called and the motion passed with 5 votes in favor and 0 opposed; Mr. Bond abstained.

**Revise the fee charged for “Lot Set Back Reductions”**

*ExCom*

We presently charge $40.00 for the application fee, plus $6.50 per abutter notice and there are normally 4, then we require 7 copies of the application and support material. The Code Officer has recommended that we increase the application fee to $100 and the office will then take care of everything with no additional charges. The regular appeal application requires a similar process. Mr. Nun suggested having the Code Officer review all of the fees and recommend changes for the next meeting.

**Reorganize the Fire and EMS Services**

*Wayne / ExCom*

The AVOC training was completed for the EMS service, the rescue unit has been inspected, and the new Maine EMS license has been received. EMS is ready to go. On the other hand, a number of the members of the volunteer fire dept. have resigned. Dave Bond has agreed to serve as the acting fire chief. Dave has been a member of the Topsfield Mass. Fire Dept. for 35 years, 28 of those as a lieutenant. In addition he has been an EMT for 34 years. Dave has talked to a number of people who have agreed to help.

**Policy on Memorial Benches**

*ExCom*

We have a request from an Island family to install a stone memorial bench on the Island. To my knowledge there is no policy on specs for memorial benches or where they can be placed. The members of the ExCom preferred to consider each request on a case by case basis rather than having a specific policy. Wayne will work with the Ms. Deubler to get this taken care of.

### Other New Business

**General Assistance Audit**

*Wayne*

Wayne reported that a representative from the State had performed an audit of our General Assistance Program and we have received a report indicating that we are in compliance.

**Lot Line Issue**

*For Information*

Wayne reported that a lot line discrepancy had been discovered on the maps that we have. The large map that was prepared by Wright & Pierce in 1974 and shows the whole Island shows the water front distance for 1655 Ridge Road as 159 ft. and the water front on the abutting property at 1654 Ridge Road as 79 ft. The section maps show the water front on these same lots as 110ft. and 102ft. respectively. The section maps are on line and are used by some of the surveyors.

**Golf Course Geese**

*Wayne*

Wayne reported that he is getting calls from Islanders that are upset with the fact that the geese are apparently no longer with us. The ExCom suggested that Wayne prepare a letter to the Golf Committee to remind the members that they must help support all of the laws and regulations.
2014 Budget
06/22/2013
Wayne reported that he has done a very preliminary draft of the 2014 budget. Leaving everything the same as 2013 with the exception of insurances and the school and county budgets, the tax rate will increase by approximately $1.68. This equates to $336 on a $200,000 property.

Medical Calls
06/22/2013
At the last meeting the question was asked about the policy associated with the return trip on Emergency Medical calls. Mr Sutherland asked that this be put on the agenda again for the next meeting.

Meeting Minutes: A motion was made by Mr. Bond to approve the minutes off the June 1st meeting as presented. The motion was seconded by Mr. Nun and approved with 6 votes in favor and 0 opposed.

Treasurers Report: Mr. Potts reported that the department financials for this year were running better than last year.

Golf Report: No report

Marina Report: Mr Bond asked that we add a note in the FINS indicating that we have slips at the marina available for rent.

ADJOURN
A motion was made by Mr. Donohue to adjourn the general meeting at 1043. The motion was seconded by Mr. Bond and approved with 6 votes in favor and 0 opposed.
